## **Month of the Military Child Family Night: A Celebration of Community and Learning**

Over 100 students and family members joined us for the Month of the Military Child Family Night at WPMS. The event was a wonderful opportunity for our school community to come together and celebrate the unique contributions of military families.

The evening began with a music showcase, where students displayed their musical talents, delighting the audience with their performances. This was followed by Clubs and Sports Reports, providing insights into the various extracurricular activities available at WPMS. These reports highlighted the achievements and opportunities within our clubs and sports teams, encouraging more students to get involved.

A significant part of the night was the Continuous School Improvement Update. This segment offered valuable information about our ongoing efforts to enhance the educational experience at WPMS. Parents and students learned about the initiatives and strategies being implemented to ensure continuous growth and improvement in our school.

Throughout the event, attendees participated in station rotations featuring activities and games connected to our school-wide CSI goals. These interactive stations were designed to be both educational and enjoyable, reinforcing the importance of our CSI objectives in a fun and engaging manner.
